Announcement 791

CPT Code 90644 (MenHibrix®) is FDA-Approved and is a Vaccines for Children (VFC) Vaccine

CPT code 90644 (MenHibrix® vaccine) was recently approved by the Food and Drug Administration (FDA). Effective with dates of service on or after June 1, 2014, the vaccine is provided free of charge to Vaccines for Children (VFC) providers for eligible recipients age 2 to 15 months.

CPT code 90644 is not reimbursed through Nevada Medicaid/Nevada Check Up. Providers who administer the vaccine must bill the administration code (CPT code 90460, Immunization administration through 18 years of age via any route of administration, with counseling by physician or other qualified health care professional; first vaccine/toxoid component) at the usual and customary charge and bill the vaccine (CPT code 90644) at a zero dollar amount.
